## History Curriculum 2023-2024

## What do we want for our pupils?

### Intent

At Saint Mary's, our History curriculum is designed to inspire children's curiosity about the past through a topic-based approach and hands on experience wherever possible. Children have voiced, what they want to know about their country's history so we strive, through our topics, to deliver this. We teach our children how Britain has influenced and been influenced by the wider world. Children are also taught about significant historical events that have shaped the world in which we live in today, as outlined in the national curriculum. The teaching of history in our school is intended to equip pupils to ask relevant questions about the past, analyse evidence, think critically, appreciate different perspectives, and develop informed judgements. Our History curriculum is intended to help pupils to understand the complexity of people's lives, the process of change, the diversity of societies and relationships between different groups.

### Implementation

We deliver the history curriculum through carefully thought out topics that ensures coverage of the national curriculum as well as progression of children's knowledge and understanding. Each term, children will study an in-depth historical topic, where they can explore and be fully immersed in a history project. This is to ensure children have time to develop their skills and knowledge as well as have in depth learning. As a school, we decided that it is important for the children to understand the background of our local area, country and historical events that have happened and shaped our lives today. As result, all year groups will study in-depth history topics of a chronological timeline of life and events in British History. History knowledge about the wider world will be covered in other topics throughout their time in school. Learning will be practical and hands on, where possible, through educational visits or through professionals visiting the school. The topics will provide meaningful contexts to their learning and encourage them to think like historians. Through the topics, children will use a wide range of skills in order to present their work.

## What is our goal?

### Impact

By the time the children leave Saint Mary's, they will:

- have a secure knowledge and understanding of people, events and contexts from the historical periods covered.
- be able to discuss their knowledge and understanding of key events confidently.
- have the ability to think critically about history and communicate confidently in styles appropriate to a range of audiences.
- have the ability to consistently support, evaluate and challenge their own and others' views using detailed, appropriate and accurate historical evidence derived from a range of sources.
- have the ability to think, reflect, debate, discuss and evaluate the past, forming and refining questions and lines of enquiry.
- develop a passion for history and an enthusiastic engagement in learning, which develops their sense of curiosity about the past.
- have a respect for historical evidence and the ability to make robust and critical use of it to support their explanations and judgements.

## Assessment in History

Assessment for learning is continuous throughout the planning, teaching and learning cycle. Key historical knowledge is taught to enable and promote the development of children's historical enquiry skills. Assessment is supported by use of the following strategies:

- Observing children at work, individually, in pairs, in a group and in class during whole class teaching.
- Using differentiated, open-ended questions that require children to explain and unpick their understanding. In addition to multiple choice retrieval quizzes at the start of each lesson to demonstrate the acquisition of 'sticky knowledge'.
- Providing effective feedback, including interactive marking through green pen questions where appropriate, to engage children with their learning and to provide opportunities for self-assessment, consolidation, depth and target setting.
- Book moderation and monitoring of outcomes of work, to evaluate the range and balance of work and to ensure that tasks meet the needs of different learners, with the acquisition of the pre-identified key knowledge of each topic being evidenced through the outcomes.

## NATIONAL CURRICULUM

### In KS1 pupils are taught about:

- changes within living memory. Where appropriate, these should be used to reveal aspects of change in national life
- events beyond living memory that are significant nationally or globally
- the lives of significant individuals in the past who have contributed to national and international achievements. Some should be used to compare aspects of life in different periods
- significant historical events, people and places in their own locality.

### In KS2 pupils are taught about:

- changes in Britain from the Stone Age to the Iron Age
- the Roman Empire and its impact on Britain
- Britain's settlement by Anglo-Saxons and Scots
- the Viking and Anglo-Saxon struggle for the Kingdom of England to the time of Edward the Confessor
- a local history study
- a study of an aspect or theme in British history that extends pupils' chronological knowledge beyond 1066
- the achievements of the earliest civilizations – an overview of where and when the first civilizations appeared and a depth study of one of the following: Ancient Sumer; The Indus Valley; **Ancient Egypt**; The Shang Dynasty of Ancient China
- Ancient Greece – a study of Greek life and achievements and their influence on the western world
- a non-European society that provides contrasts with British history – one study chosen from: early Islamic civilization, including a study of Baghdad c. AD 900; **Mayan civilization c. AD 900**; Benin (West Africa) c. AD 900-1300.
