In **Science**, our topic is **Circulatory system**. Children will be able to understand the system that moves blood around the body. They will undertake science investigations while dissecting the heart and recognise its different parts. As we make blood, we will recognise the components and understand their properties. We will look at the three main blood vessels within the human body.

In **Geography**, we will be discussing the **economical activity** in Grimsby. Using a range of sources, we will learn about the **trade links** from Grimsby to the UK, Europe and the wider world. We will discuss how **non-renewable energy** has an impact on the local area and the **renewable energy** contributions that are already in place. Finally, we will look at the regeneration plans for Grimsby, to make a vibrant successful town.

In **Art**, children will be studying **Vincent Van Gogh** and how he used **expressionism** in his paintings. We will begin by exploring harmonious colours to create emotions and moods. We will create '**Starry Night**' by using different textures, techniques and patterns.

In **RE**, we are starting our new topic, **Local Church** and the **community**. We will be looking at books and **sources** of evidence that we read. We will explore that there were all kinds of writings and how authors published the truth about God. This will give us an understanding why the church family believes that the Holy Spirit is also the author of the bible. We will link this to poetry, prose, history, Bible stories, Old Testament and New Testament.

In **Maths**, we will continue with our **fractions** unit before moving onto **converting metric** and **imperial measurements**.

In **English**, our writing focus this term will be a **newspaper article** and an **explanation**.

Our reading skills book this term will be **The Lion above the Door**.

Reading books and records to be sent in everyday please. Dojos awarded for 3 recorded 10 minute reads at home.
