Lent 2

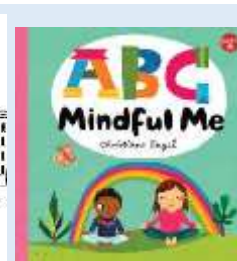

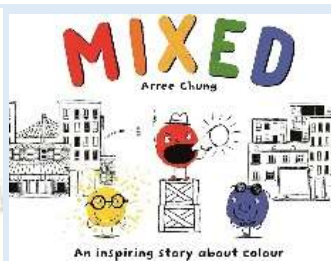

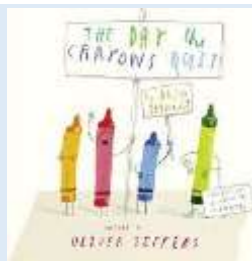

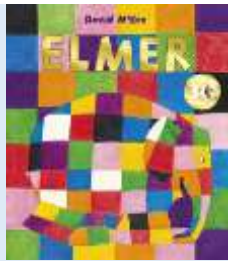

Our topic this half term is Puddles and Rainbows

We will be learning all about the weather, colour mixing and what happens in spring.

This term our focus for PSED is to begin to resolve conflicts with other children on our own. We will be encouraging the children to try and sort out their problems themselves to become super problem solvers. Our focus for Physical Development is to continue building up our fine motor skills for holding tools. Our big focus is on using a pencil to write. We will also be working on core strength so the children are able to sit comfortably at a table. Our big focus for Communication and Language is speaking and we will be continuing to work on talking in sentences and expanding our vocabulary.

Our Stories This Term

Literacy

This half term we will be starting to write independently. This could be writing initial sounds, writing words or writing sentences depending on the children's ability. It is really important that children form letters correctly so please encourage the children at home to start their letters in the right place.

Maths

In maths this half term we will be continuing our work on numbers to 10. We will be finding them, representing them, subitising them and composing them. We will also be learning our number bonds to 10. We will also be looking a little bit at time as well as length and height.

Topic

Our topic lessons are always based on the focus book for that week. We will be learning all about the colours of the rainbow, how rainbows are made, what happens in spring, where puddles come from and how clouds are made
