

When you
leave on the
Internet when
someone is being toxic
report them on the game
or leave the game and play a
game and stay on
the internet. Stay safe on
Minecraft

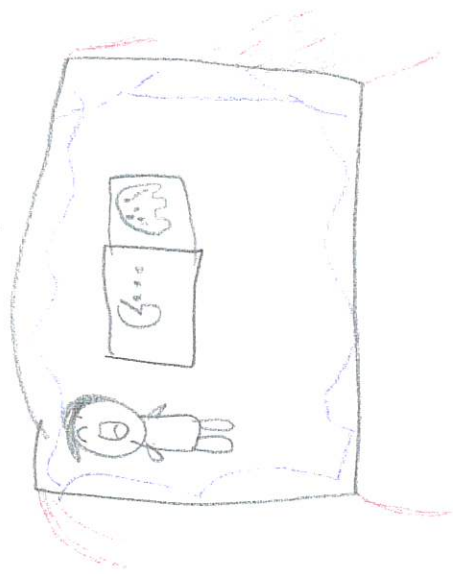

what I think some games are losing graphics

smart youtuber are barley posting videos

games are getting better

what do you think of the changes that have happened on the internet recently

Fortnight

Fortnight has not as updates its
not so submiss. like a list its
Lego fortnight next its the
ag map like whoana

LEGO

What is your Fik
the changes in the
support of the
recently

What do you think of the changes that have happened on the internet recently?

I think it has made rape to and addicted them, BAD for them, because it isn't good for people's health.

I think on the internet recently has been Not really **SAFE!** because people ask for your address were you

I also think **AI** the internet worst made and can be made because it has people with videos and think people can copy them.

What do you think of the changes that have happened on the internet recently?

It helps with ENTERTAINMENT

It is

I think it's getting

RANGLERONS

because of the basket

What do you think happened on the
internet recently

OWWWW

I think that people has been
scanning others for money

And maybe a

AN

I think that other are stalking others on the internet
trying to be a human

I think people are scrolling for novelty

What do you think
of the changes
that have happened
on the internet
recently

I think AI made the internet worse because everybody uses it to do stuff for them.

I think AI needs
to be safe because
~~of~~ prompt people.
